WOODLAWN  
AND  
POPE-LEIGHEY HOUSE

To Whom It May Concern:

During the spring and summer of 2015, I had the pleasure of working with Randal Rowzie and his crew on three projects at Woodlawn Historic House in Alexandria, a property of the National Trust for Historic Preservation. The projects ranged from the reconstruction of a small staircase, to a complete restoration of an historic garden path and supporting wall. The projects were all very successful.

Randal and his crew took the time to discuss the projects with me and my leadership, kept a safe and clean work environment, cleaned-up well after the projects, were always kind and courteous to our visitors, and delivered a superior product. Equally important, he submitted comprehensive proposals, was responsive to our repeated requests, submitted invoices and change orders as requested, and offered competitive pricing. They were a pleasure to work with and I would not hesitate to contract their services again.

At the National Trust for Historic Preservation, we are very particular when vetting and selecting our tradesmen. When we find a crew we appreciate and respect we will continue to utilize their services, Randal's Restoration Masonry is no exception. I highly recommend Randal and his crew for your masonry projects.

If at anytime you would like to validate the content of this recommendation, please feel free to contact me at the information provided below.

Sincerely,

Audra Medve
